

TopSafe 1.2

TopSafe 1.5

TopSafe 1.8

## Description

Cruma TopSafe microbiological safety cabinets are supplied in three different sizes (1.2mt, 1.5mt and 1.8mt). These last generation Microbiological Safety Cabinets, have been certified according to the most stringent safety standards (EN12469-2000). The internal design, the air flow aerodynamics and monitoring, the built-in safety devices and the very accurate manufacturing, guarantees the highest performances at the most stringent safety levels, as specified by EN12469, NSF49 and AS2252 standards and have been certified by the most prestigious European certification bodies for Safety Cabinets. Certified intrinsic biological safety, combined with impressively competitive prices, gives the end user a state of the art cabinet accessible to every budget, that only experienced European design and accurate quality manufacturing, can provide.
